Features

- Available in a variety of colors, for a variety of tastes.
- Fully charges your iPhone within 2 hours.
- Strong & durable material protects your iPhone from bumps and scratching. Note: The BX140 is not a shockproof case. Like any other electronic product, dropping the case may damage the case and is not protected under the manufacturer's warranty.
- Protective IC circuitry avoids short-circuits, over-charging and malfunction even under extreme conditions.
- You have the option of changing frame colors to dress up your iPhone. Visit our website or contact us to learn how you can get more bumpers.

Installation

Installing

- Installing: Remove the bumper and place the iPhone into the battery case. Install the bumper on top in the correct orientation and snap into place on all sides.
- Uninstalling: Slide your finger in the groove on the bottom side of the case and gently remove the bumper by fingernail.

Notes

- When the battery case is turned on, you will notice the charging signal appear on your battery indicator. When charging is finished, the signal will disappear.
- The battery case includes a USB cable. Use the provided USB cable to charge and sync your battery case with a wall charger, or with a laptop/desktop.

- Due to Apple's placement of the headphone jack on the iPhone, not all headphones will fit the connector. For your convenience, an adapter has been provided. Simply connect the adapter to and keep it with your favorite headphones or car AUX cable so that it is always ready for your phone when you need it.

Charging Battery Case & iPhone Together

- Connect your battery case (iPhone already installed) to the USB power cable.
- Connect the USB power cable to any USB power source such as computer to start charging. The case is programmed to allow your iPhone to fully charge, followed by the case.
- Charge until the LED indicators are solidly lit.

Charging Your iPhone Using Your Case

- Press the power button (hold for 3 seconds) to activate the case. The LED lights will turn on, and you will see the charging indicator on your iPhone.
- Press the power button again (about 3s) to turn off the battery case when iPhone is fully charged, which can significantly save the remaining power left in the built-in battery so you can charge your iPhone next time.

LED indicators

Package Contents

- Battery Pack, and 2 bumpers

- Audio jack cable

Warning

- Read all instructions and warnings prior to using this product. Alpatronix is not responsible for improper use of this product. Improper use may result in product damage, excess heat, toxic fumes, fire, or explosion, which may cause you harm.
- Do not store battery case in high temperature environments, including intense sunlight and/or heat.
- Do not place battery case in fire or other excessively hot environment.

- Be cautious of drops, bumps, abrasions, or other impacts to this battery. Discontinue use if dents, tears, punctures, deformities, or corrosion are visible. Contact Alpatronix or dispose at the nearest Hazardous Waste Collection Facility.
- Do not disassemble this battery case or attempt to modify it in any manner.
- Do not expose this battery case to moisture or submerge it in liquid. Keep the battery dry at all times.
- Do not attempt to charge battery case using any method, apparatus, or connection other than the device's USB connector.
- Do not attempt to replace any part of this battery.
- If the battery case is intended by purchaser to be used by a minor, purchasing adult agrees to provide detailed instructions and warnings to any minor prior to use. Failure to do so is the sole responsibility of purchaser, who agrees to indemnify manufacturer for any unintended use/misuse by minors.
- All battery cases have gone through a thorough Quality Assurance inspection. If you find that your battery is excessively hot, emitting odors, deformed, abraded, cut, or is behaving abnormally, immediately stop use and contact Alpatronix at support@alpatronix.com or by phone at (888) 407-7515.
- For extended storage, first charge your battery case for one hour.
- Never dispose of battery case in the garbage. Disposal of batteries in the garbage is unlawful under state and federal laws and regulations. Always contact the manufacturer or take used batteries to the nearest hazardous waste collection facility or a battery-recycling center.
