Illustration:

Features:

- Fully charge the iPhone 7plus within 2 hours.
- Cut outs for all the iPhone features, use your iPhone without removing it from the case.
- Strong & durable material protects your iPhone from bumps & scratching.
- Protective IC circuit efficiently avoid short-circuiting, over-charging, and malfunctions even under extreme conditions.
- Changeable Frames of different colors, dress up your iPhone on every single day.

Installation

- Remove the bumper and place the iPhone into the battery case
- Install the bumper on top in the correct orientation and snap into place on all sides
- Removing: Slide your finger in the bezel on the bottom right side of the case and lift the bumper

Notes: When the battery case is turned on, you will notice the charging signal appear on your battery indicator. When charging is finished, the signal will disappear. The battery case includes a USB cable. Use the provided USB cable to charge and sync your battery case with a wall charger, or with a laptop/desktop.

Charging your Battery Case and iPhone

- Connect your battery case (iPhone already installed) to the USB power cable.
- Connect the USB power cable to any USB power source such as computer to start charging.
- Charge until the LED indicators read full.

Charging your iPhone with Battery Case

- Press the power button (about 3 seconds) to charge your iPhone in situation of no external USB power sources.
- Press the power button again (about 3seconds) to turn off the battery case when iPhone is fully charged. This can significantly save more battery power to charge the iPhone next time.

LED indicators

Package Contents
