Help Us In Our Charitable Endeavors

Alpatronix donates \$1 to charity for every review you leave on Amazon.com. Help us make the world a better place, AND help us and your fellow customers by giving us your valuable feedback.

Thank you for being a contributing citizen of this world !

Functions:

- Handsfree + FM transmitter + Smartphone holder + USB charger
- Connect the audio source of the smartphone to the FM transmitter via AUX cable, set the FM channel of the MX100 and your car FM radio to a free channel with no other radio station. The FM transmitter will broadcast your smartphone's audio on that channel.
- Through the USB charging interface, you can charge your mobile phone, MP3/MP4 player, GPS, and any other USB-charged digital products.

Main Features:

- Frequency range: 88.1MHz - 107.9MHz
- LED display
- Hi-Fi stereo music streaming from smartphone
- Adjustable 360-degree rotation
- Flexible arm width from 20 ~ 100mm
- Restore the last frequency and volume when you restart the device
- Supports handsfree function. Voice calls can be heard through the car audio system when 3.5mm auxiliary cable is connected.
- Handsfree function compatible with Samsung, HTC, Apple, and almost all other smartphones in the market.
- Transmitting will turn off automatically if no audio signal is received in 60 seconds.

Specifications:

- Handsfree car kit for smartphones
- Over-current protection and over-voltage protection
- Power ON/OFF switch
- Power supply: DC 12 ~ 24V
- Fashionable goose-neck design

Panel Button Operations:

CH+/-: Press to change frequency by 0.1MHz, or hold to change the frequency rapidly.

Play (if equipped): Play or pause

Power Switch: Power ON/OFF

Operating Instructions:

1. Insert the unit into the car cigarette lighter, put your device into the cradle, and lock in.
2. Connect the 3.5mm audio jack to the smartphone, adjust the transmitting frequency of the MX100 and your car FM radio to the same channel. Note: Please make sure to use a radio frequency channel with no other radio station or other radio traffic.
3. The FM transmitter will broadcast your smartphone's audio through your car speaker system.
4. In case of an incoming call, press Play to answer an incoming call. Press Play again to end the call.

Charging Function:

1. Connect the USB cable to the USB interface and the mobile charging will start automatically.
2. USB charging maximum output is 5V, 1000mA.
