Alpatronix®

USER MANUAL FOR
ALPATRONIX MX102
Car Mount with USB-C

Double Your Manufacturer's Warranty!

⚠️

Your product comes with a 1-year manufacturer's warranty. Within the first 2 weeks from the date of purchase, you can extend that warranty to 2 years by sending an email to lifetime@alpatronix.com. Don't worry, we will not scam you, nor will we sell your information to any third party.

Your email is the warranty application. You have 2 weeks to apply from the date the product is delivered by the carrier. Terms and conditions apply.

Help us in our charitable endeavors:

Alpatronix donates $1 to charity for every review you leave on Amazon.com. Help us make the world a better place AND help us and your fellow customers by giving us your valuable feedback.

Functions

- This smartphone car mount is equipped with 2 USB-B charging ports + 1 USB-C charging port

- The USB-B outlets have a 2.1A output on the left side, and 1A on the right side. The USB-C outlet has a 3A output

- Important notice: This device is ideal for use in cars with power outlets that are set at a vertical or 45-degree angles. If the power outlet is horizontally oriented, the gooseneck may not be strong enough to support the weight of some of the heavier smartphones in the market

- Holds the phone at an optimum angle to enable navigation or other functions

Functions

- Charging cables not included. Simply connect your own charging cable, wrap the extra cable around the gooseneck, power on the MX102, and you are ready to go

- Fashionable gooseneck design

Specifications and product diagram

- 2 USB-B ports, plus 1 USB-C port

- Power Input: DC 12 ~ 24V

- Output: 5V, 2.1A/3.0A/1A

- Adjustable 360-degree rotating phone holder

- Flexible arm width from 0.75 – 4 inches (20 – 100mm)

- Over current protection and over-voltage protection

Assembling your MX102

Place the cap on the end of the gooseneck (as shown)

Attach the holder to the end of the gooseneck. You will hear a loud "click" once the holder is secure

Tighten the cap to the holder by turning it clockwise

Adjusting Your Holder

Protecting your device is important to us. For this reason, the MX102 can be adjusted to fit your gadget perfectly, ensuring it is safely held in place:

1. Open the clamp (Figure 1)

Notice
1. It is normal for the charger to get warm when charging. After your device's battery is fully charged, the charger will return to normal room temperature.
2. For optimum functionality, please use this charger within the temperatures of 0°C – 40°C (32 -104 F)
3. Please turn off the MX102 by switching the device to "OFF" position when the charger stops charging.

2. Put your device inside the clamp and within the silicone-padded area

3. Close the clamp

Caution

1. Only use high-quality USB charging cables. Avoid using aftermarket cables that may be unsafe. Using sub-standard cables may cause overheating and fire.

2. Only charge devices that use USB chargers.

Caution

3. Incorrect use of this charger may cause the risk of electric shock, fire, or damage to your car or electronic devices.

4. This charger is only suitable for internal use in the car. Beware of exposure to rain and other moisture.

5. Do not puncture, take apart or disassemble the charger.

6. Do not use or store the charger in places with high heat or moisture.

Important

It is your responsibility to check traffiic and safety regulations in your area to ensure the lawful of use this device.

Package Contents

• 1 x MX102 charging unit with flexible gooseneck

• 1 x MX102 smartphone holding clip and tightening nut

• 1 x Micro USB charging cable (not suitable for data transfer)

• 1 x User manual

Operating Instructions

1. Insert the unit into the car cigarette lighter, put your device into the cradle, and lock in

2. Power the MX102 to ON position

3. Connect the charging cable (not included) into the appropriate USB port, wrap the extra cord around the gooseneck, and connect the charging end to your phone

4. It is recommended to power the MX102 OFF when your phone is fully charged

Operating Instructions

5. It is normal for the MX102 and your device to get slightly warm when charging is in progress.

When your device is done charging, the temperature will go back to normal. If you experience excessive heat or smoke, discontinue use immediately and contact Alpatronix Customer Service. Do not attempt to fix this device by yourself.

Alpatronix Warranty and 100% Customer Satisfaction

If there is any problem with the operation of this device, please contact Alpatronix Customer Service so that we may further assist you. Alpatronix products are made with materials of the highest quality, without sacrificing our customers on price. Defects are rare, but do happen with electronic products. All Alpatronix brand products are backed by a 1- year limited warranty, as well as an optional extended warranty (registration required) against any defect in material or workmanship so that you are protected even when the return period for your purchase has ended. Alpatronix Customer Service may be reached at (888) 407-7515, or by email at support@alpatronix.com

Please remember that your product comes with a 1-year warranty. If there is any problem with your product, please do not hesitate to contact us.
